 - A. Measuring the course:
 1. If you need assistance to do the measuring it is recommended that you have the Regional Director or Tournament Director help.
 2. All measurements must meet NAFA® measurement tolerances using a single, continuous tape.
 3. All jumps should be measured for height and be within 1/4".
 4. Jump placement must be within 2" of the jump-set line.
 - B. Verify the height dog measurement:
 1. Refer to the height dog measurement sheet.
 - a. If the dog has a height card, which can be presented to the judge for verification, no action is necessary.
 - b. If the dog was measured prior to racing, no action is necessary.
 - c. If the dog was not measured prior to racing, it is mandatory that it be measured at this time.
 - C. Check the flyball box:

 2. Throw of all holes using all sizes of balls used must be checked.
 3. The placement of the box should be at least 51' from the start finish line.

If all of the above requirements are met, the Head Judge should sign and date the world record form. It should be given to the team captain so that they can submit it along with a copy of the video to the Board of Directors.

- It may be necessary to view the tape at a later time due to poor tape or lighting quality and or the size of the screen available to view the tape on.

If all of the above requirements are met, both members of the Board of Directors should sign and date the world record form. A copy of the world record form must be submitted to the Executive Director within fourteen days in order to record the new record.
