3 NAFA® World Record Report Form Instructions

What to do when a possible world record has been achieved:

Racing should be stopped immediately.

The Head Judge should notify the Regional Director of the possible world record. At that time if they have any questions on how to proceed, or during the time of recording the information and verification, they should be directed to the Regional Director.

The world record form should be pulled from the rules of racing and the general information at the top should be filled out in prior to proceeding to the checklist portion.

Checklist portion:

Course, height dog, box verification and ball:

A. Measuring the course:

1. If you need assistance to do the measuring it is recommended that you have the Regional Director or Tournament Director help.
2. All measurements must meet NAFA® measurement tolerances using a single, continuous tape.
3. All jumps should be measured for height and be within 1/4".
4. Jump placement must be within 2" of the jump-set line.

B. Verify the height dog measurement:

1. Refer to the height dog measurement sheet.
 - a. If the dog has a height card, which can be presented to the judge for verification, no action is necessary.
 - b. If the dog was measured prior to racing, no action is necessary.
 - c. If the dog was not measured prior to racing, it is mandatory that it be measured at this time.

C. Check the flyball box:

1. Dimensions must meet NAFA® standards. It must be measured at this time, unless it was previously measured at the tournament.
2. Throw of all holes using all sizes of balls used must be checked.
3. The placement of the box should be at least 51' from the start finish line.

If all of the above requirements are met, the Head Judge should sign and date the world record form. It should be given to the team captain so that they can submit it along with a copy of the video to the Board of Directors.

Video tape verification:

- A. To be considered for a world record an unedited videotape is mandatory.
- B. The video must be stationary and in line with the start finish line, with a clear view of the sensor panels, and the light tree.
- C. All passes / exchanges must be clean to qualify for a world record.
- D. The electronic judging system must not show any errors or faults.
- E. All dogs must carry their ball over the finish line.
- F. The heat should be timed with a stopwatch when the video is reviewed. The hand timing is to confirm that the tape is of the actual run in question.

*Special notes

- If two neutral members of the Board of Directors are present at the tournament, the video may be reviewed at that time.
- It may be necessary to view the tape at a later time due to poor tape or lighting quality and or the size of the screen available to view the tape on.
- The run in question must meet all of the above criteria or it cannot be considered for world record status.

If all of the above requirements are met, both members of the Board of Directors should sign and date the world record form. A copy of the world record form must be submitted to the Executive Director within fourteen days in order to record the new record.

If there are not two neutral members of the Board of Directors available at the tournament:

- A. The original or a copy of the video will be forwarded to the Executive Director to coordinate the review process.
- B. The Executive Director must receive the original or a copy of the video within fourteen days of the run in question.
- C. A completed copy of the world record form must accompany the tape.
- D. All of the criteria in item 2 must still be met.

Records will be confirmed by NAFA® within 14 days of receipt of the necessary documents.
